DID YOU KNOW that mental illness affects one in four adults? Did you know that 25% of youth in Sandusky County reported feeling hopeless and depressed for two weeks or more and stopped doing their usual activities? Did you know that twenty two veterans commit suicide every day in the nation? Did you know that mental illness not only affects those with a mental illness, but their entire families? Mental illness is not a personal weakness or lack of character and it is time that we start talking about it! On Tuesday, Jan. 26 at 6:30 p.m., in the lounge, Melanie White from National Alliance on Mental Illness (NAMI) will have a presentation on brain disorders and mental illnesses and how they affect a person's thinking, feeling, moods, daily functioning and family life. There will also be a chance to sign up for support groups if a person or family is looking for further help and suggestions. Please contact Stacey Reau if you have any questions.
